Consent to Collect, Use and Disclose Personal Information

I hereby consent to the collection, use and disclosure of my personal information by the Indigenous Skills and Employment Training (ISET) Program holder and/or its agents for the purpose of determining my eligibility for, and administering, employment and training programs and services.

I understand that my personal information may be shared with federal and provincial government departments and agencies, educational institutions, employers and other third parties for the purposes of determining eligibility, delivering services, monitoring outcomes, research and statistical purposes, and administering the program.

I understand that this consent is voluntary and may be withdrawn in writing, and that withdrawal may affect eligibility for employment and training supports.

Career Goals & Training Plan

OVERALL CAREER GOALS

Establish NorthOps as a sustainable Indigenous-owned software engineering and AI solutions firm operating from Sagamok Anishnawbek First Nation, providing enterprise-grade technology services while building sovereign digital infrastructure for Indigenous communities across Ontario.

HOW DOES THIS ACTIVITY SUPPORT YOUR CAREER GOALS?

Self-Employment Assistance provides the income stability needed during the critical first 40 weeks of business operations, allowing me to focus on client acquisition, infrastructure deployment, and establishing NorthOps' market position without the financial pressure of immediate profitability.

FOLLOWING THIS PROGRAM, DO YOU INTEND TO

Continue Working

THREE-YEAR TRAINING PLAN

Year 1: AWS Solutions Architect certification, establish NorthOps operations and initial client base. Year 2: AI/ML specialization certification (e.g., Google Professional ML Engineer), scale to recurring revenue. Year 3: TOGAF Enterprise Architecture certification, expand service offerings to include Indigenous digital sovereignty consulting.

Step 4: Career Action Plan

Appendix G — ISETP-007

Form #: ISETP-007 **Policy Ref:** ISETP Policy 5.4 **Date Reviewed:** 2024-04-01 **Pages:** 9

Career Goal

The Career Action Plan assists in exploring career options, identifying skills and training needs, and building a clear path to employment or self-employment.

CAREER GOAL

AI Solutions Architect / Technology Entrepreneur

WHY THIS OCCUPATION OR PATH?

With 10+ years of senior software engineering experience and deep expertise in full-stack development, DevOps, and AI engineering, I am positioned to bridge the gap between Indigenous communities and emerging technology. The AI Solutions Architect role combines my technical background with OIATC's mission of Indigenous digital sovereignty.

Job Market Research

#	POSITION	EMPLOYERS / MARKET	RESPONSIBILITIES	COMPENSATION	LOCATION
1	AI Infrastructure & Solutions Architect	University of Toronto, major banks, government	Design and deploy secure AI platforms, bridge hardware and user applications, manage GPU infrastructure	$60/hr to $76/hr	Toronto/Ottawa primarily, remote options expanding
2	Senior AI Architect — Consulting	CGI, Deloitte, Accenture, boutique firms	AI strategy for enterprise clients, solution design, team leadership	$65/hr to $100/hr	Nationwide, strong remote options
3	AI Solutions Architect — Independent / Firm Principal	N/A — clients include First Nations, municipalities, SMEs, startups	Client acquisition, solution architecture, delivery, team management, business operations	$75/hr (blended client rate) to $150+/hr	Northern Ontario / remote — serving clients nationally

Education, Skills, and Work Gap Analysis

Objectives

BUSINESS OBJECTIVES

NorthOps provides fixed-price software engineering and AI solutions to businesses, First Nations, and organizations. Services include web application development (Laravel, Vue), AI/LLM integration, DevOps infrastructure, and content/data pipelines. Starting at CAD $3,600 per MVP, NorthOps delivers senior-level engineering without the overhead of traditional consultancies. The firm operates from sovereign infrastructure on Sagamok Anishnawbek First Nation land, advancing Indigenous digital sovereignty while serving clients nationally.
